

### opulence brightening cleanser-50ml

A gentle, purifying cream based cleanser designed to effectively lift away impurities and dead cells. Helps reduce the appearance of surface pigmentation leaving skin clean and bright.

### opulence hydration gel - 40g

A lightweight, non-greasy, moisture-rich gel for all skin types to actively counteract skin dehydration and brighten uneven skin tone.

This silky hydration complex promotes natural collagen and elastin production - so essential for collagen and elastin synthesis - visibly reducing the appearance of fine lines and wrinkles and improving skin texture. A botanical brightening complex helps to balance uneven skin pigmentation and disperse light, leaving skin smoothed, refreshed and radiant.

### opulence moisture brightening cream - 40g

A light, nutrient rich cream with essential oils and antioxidants and botanical brightening ingredients to restore moisture, help fight free radical activity, balance uneven skin pigmentation, and visibly reduce the signs of ageing.

This soothing and healing formula calms, conditions and brightens the skin and helps restore vital moisture to revitalize skin appearance.

Complex hyaluronic acid and squalene promote deep hydration and nourishment leaving skin soft, smooth and radiant.

### opulence brightening wand

A concentrated brightening complex to specifically target areas of the skin with uneven skin tone/pigmentation and to smooth fine lines and wrinkles in a portable, take anywhere, anytime pen.

A unique combination of antioxidants and natural extracts help to smooth and clarify fine lines and blemishes leaving skin brighter, rejuvenated and radiant.

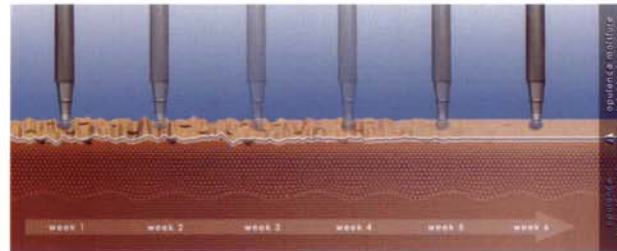

Intracuticals Opulence products are available to complement the benefits of professional treatments.

They can be purchased individually or in a convenient complete treatment course kit.

### opulence infusion course

Whilst visible results are immediate after one treatment "Rome wasn't built in a day". A course of six treatments is recommended to achieve optimum results, followed up with a maintenance treatment every four to six weeks.

opulence brightening innovation

topical hyperbaric oxygen therapy

# intraceuticals<sub>2</sub>

An Intraceuticals Opulence Brightening Infusion offers a unique experience with instant results you can see and feel.

In just one 30 minute treatment your skin will look younger, brighter, more radiant and uneven skin pigmentation improves. The appearance of fine lines and blemishes is visibly reduced, skin looks rejuvenated, radiant and fresh.

## topical hyperbaric oxygen

The application of oxygen under hyperbaric pressure allows the epidermis to increase its oxygen surface level concentration. This pressure also assists in the rapid absorption of the Intraceuticals serum.

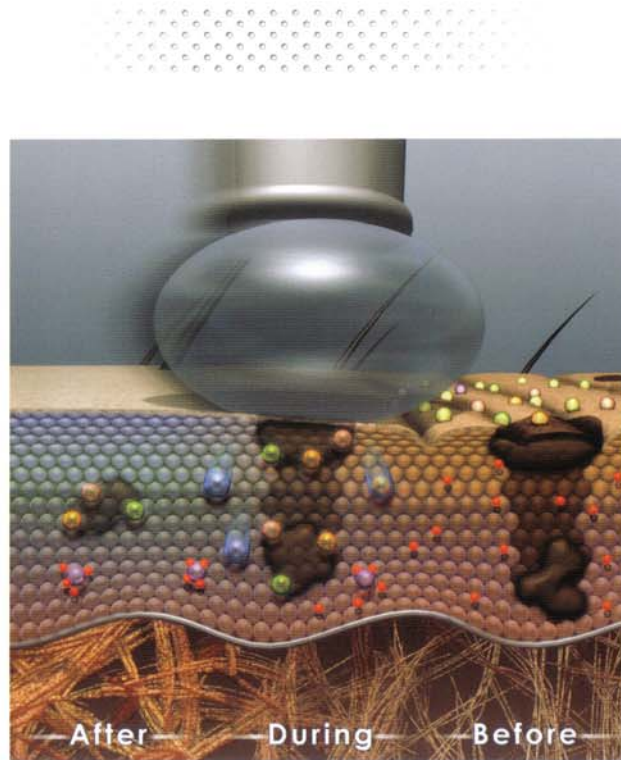

## opulence brightening serum

Opulence Brightening Serum contains a blend of botanical Intraceuticals brighteners and super concentrated Vitamin C to balance uneven skin pigmentation and leave skin radiant. Powerful antioxidants help fight free radicals and a high concentration of moisturisers ensures perfect hydration.

## benefits

A botanical brightening complex within the Opulence Brightening Serum helps control melanin formation and balance uneven skin tone/pigmentation. The infusion instantly plumps the skin surface to visibly reduce the appearance of fine lines and wrinkles.

Hyperbaric Oxygen Technology delivers therapeutic grade oxygen offering a calming environment for the skin.

## professional treatment

An Opulence Brightening Infusion can only be performed by a trained esthetician. Opulence products are available to augment the benefits of the treatment for optimum results.

## a unique infusion

Intraceuticals uses only natural hypo-allergenic products to neutralize harmful free radicals and infuse the healing properties of their unique formulations. Complex antioxidants, super concentrated Vitamin C and other vitamins are delivered to the skin allowing increased cell renewal and skin regeneration.

An Opulence Brightening Infusion is gentle, relaxing and soothing and is suitable for all skin types but particularly those with uneven skin pigmentation. It is the perfect partner for many other treatments and may enhance benefits of other therapies such as micro-dermabrasion or a peel.

## results

When you leave the clinic the results of the Intraceuticals Opulence Brightening Infusion are visible and lasting. The gentle process is non-invasive, painless and safe both during and after the treatment.
