

cleansing gel · 50ml

A lightweight gel cleanser to thoroughly cleanse the skin. This non greasy formula removes excess oil and impurities and primes the skin to obtain maximum benefits of Intraceuticals infusions and nourishers.

contour eye gel · 15g

An ultra concentrated gel to actively hydrate and combat free radicals and visibly reduce fine lines and wrinkles around the delicate eye area.

This soothing, non-irritating pH balanced gel is quickly absorbed deep into the skin for intense nourishment and to help reduce the appearance of puffiness.

A unique combination of antioxidants including Vitamin C, Vitamin E and Green Tea help fight free radical damage, and optical light diffusers disperse light and illuminate the skin.

hydration gel · 40g

A lightweight, non-greasy, moisture-rich gel for all skin types to actively counteract skin dehydration, continue hydration benefits of Intraceuticals infusions and create an invisible barrier against moisture loss.

This silky hydration complex promotes natural collagen and elastin production improving skin texture, visibly smoothing fine lines and wrinkles. Helps to refract and disperse light leaving skin soft, radiant and refreshed.

moisture binding cream · 40g

A light, nutrient rich cream with essential oils and antioxidants to restore moisture, help fight free radicals and visibly reduce the signs of ageing.

This soothing and healing formula calms and conditions the skin helping to restore vital moisture and revitalize skin appearance.

Antioxidants and natural extracts combine to soothe, condition and restructure the skin. Complex hyaluronic acid and squalene promote deep hydration and nourishment leaving skin soft, smooth and radiant.

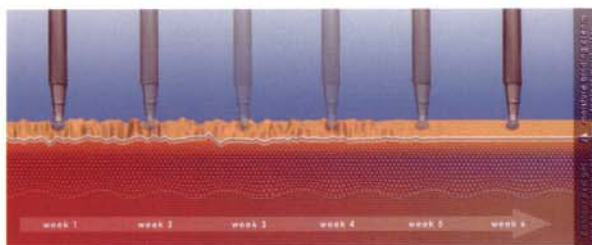

Intraceuticals Rejuvenate products are available to complement the benefits of professional treatments.

They can be purchased individually or in a convenient complete treatment course kit.

rejuvenate infusion course

Whilst visible results are immediate after one treatment "Rome wasn't built in a day". A course of six treatments is recommended to achieve optimum results, followed up with a maintenance treatment every four to six weeks.

rejuvenation infusion

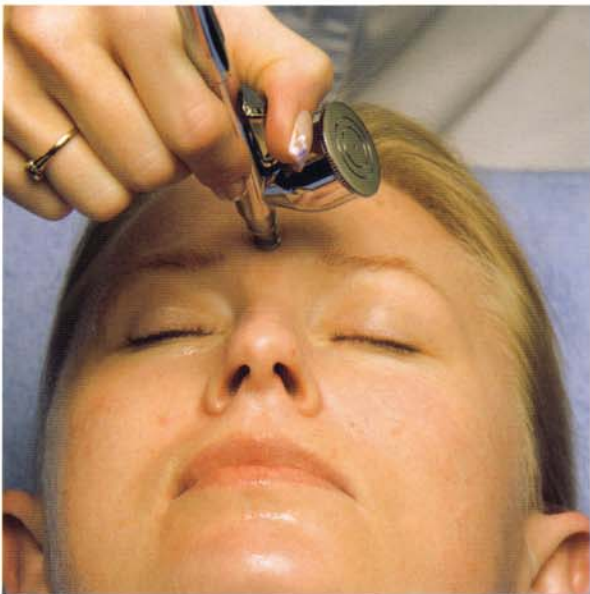

topical hyperbaric oxygen therapy

intraceuticals₂

An Intraceuticals Rejuvenation Infusion is a unique experience providing instant results you can see and feel.

In just one 30 minute treatment your skin will feel and look years younger. Your face will feel smooth and clarified, nourished and hydrated. The appearance of fine lines and blemishes is visibly reduced, skin looks rejuvenated, radiant, and fresh.

topical hyperbaric oxygen

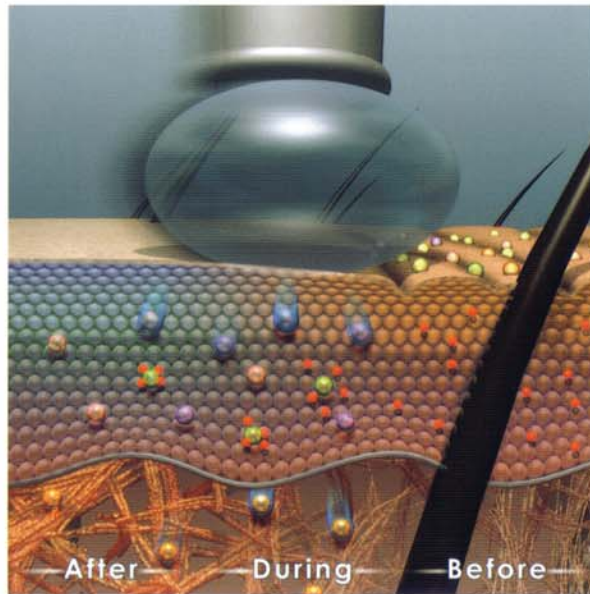

The application of oxygen under hyperbaric pressure allows the epidermis to maximise its oxygen surface level concentration. This pressure also assists in the rapid absorption of the Intraceuticals serum.

rejuvenation serum

Intraceuticals Rejuvenation Serum has a base of Hyaluronic Acid - an ingredient found naturally in the skin and renowned for its superior benefits as an ingredient carrier. Powerful antioxidants including Vitamins A, C, and E and Green Tea neutralize free radicals and high concentrations of super moisturizers ensure perfect hydration and suppleness.

benefits

Hyperbaric Oxygen Technology delivers therapeutic grade oxygen offering a calming environment for the skin. The Rejuvenation Serum stimulates regeneration of new cells and the production of elastin and collagen and plumps the skin surface to visibly reduce the appearance of fine lines and wrinkles.

in-clinic treatment

An Intraceuticals Rejuvenation Infusion can only be performed by a trained Esthetician. A range of essential take-home products augment the benefit of the treatment for optimum effect.

a unique treatment

Intraceuticals uses only natural hypo-allergenic products to neutralise harmful free-radicals and infuse the healing properties of their unique formulations. Complex antioxidants and vitamins are delivered to the skin allowing increased cell renewal and skin regeneration.

A Rejuvenation Infusion is gentle, relaxing and soothing and is suitable for all skin types. It is the perfect partner for many other treatments and may enhance benefits of other therapies such as micro-dermabrasion or a peel.

results

When you leave the clinic, the physical results of an Intraceuticals Infusion are visible and lasting. The gentle process is non-invasive, painless, and safe both during and after the treatment.
